

AMERAL INTERNATIONAL, INC.

Parking Garage Solution

LED Garage Solution delivers economic, environmental and functional benefits to your customer.

BEFORE (150W HPS LIGHT)

AFTER (75W LED SOLUTION)

This 24/7 parking garage is spending \$240 per fixture annually for electrical consumption. After LED implementation, their expense per fixture will decrease to \$87 annually.*

**Savings based on an electric rate of 10 cents per kWh. The current fixture is a 150 Watt High Pressure Sodium being replaced with a 75 Watt LED.*

Our Shared Savings Solution encompasses our LED lights, installation and maintenance for 60 months.

1. Reduce lighting energy expenditure 50% - 80%
2. 5 year worry-free renewable maintenance contract
3. Shared Savings Maintenance Agreements - no up front capital required
